## **LOG SPLITTER**

http://tiny.cc/logsplitter

## **FEATURES & BENEFITS**

- Powerful (7 ton) and safe logs splitter
- Max. log diameter 400 mm

The hydraulically powered MultiOne log splitter allows to safely and quickly split cut logs into firewood.

The wedge, driven by a powerful hydraulic cylinder, allows to split the log in two or in four pieces with the optional tool. The wedge travel is adjustable to avoid downtime.

It is equipped with a large adjustable support table with three positions: high 83 cm (32.7 in), medium 59 cm (23.2 in) and low 35 cm (13.8 in). With a power of 7 ton it is able to split logs up to 40 cm diameter.

There are two control levers which have to be activated with both hands for increased safety.

It is equipped with wheels for transport and it can also be moved manually using the handle.

Model Pow		We	Wedge Stroke			Max log diameter			Max log height			Weight			Code	
Log splitter	7 ton	55	55 cm (21.6 in)		40 cm (15.7 in)			100 cm (39.4 in)			110	110 kg (242 lbs)			C890570
